

History

Family Services was established in 1896 as a local non-profit organization, and our mission has been to strengthen families and communities through counseling, education, community building and advocacy. Since 2016 Womanline has brought unique services and programs to Family Services, including a specialization in child abuse and neglect prevention, a new community collaborative, case management services and trauma-informed therapy and support groups. Womanline and Family Services are a shining example of compatible missions joining together to better serve those in need.

Family Services is an Equal Opportunity Employer & Service Provider

Our Mission

Provide high quality, affordable counseling and other mental health services, especially those who have been abused, and to prevent abuse through educational programs

SCAN

Stop Child Abuse and Neglect

'I Can Tell' is a school and community-based program for children grades Pre K to 5th to help reduce child sexual abuse. This 30 - 40 minute program breaks down secrecy around abuse by teaching children they can tell an adult if they are feeling unsafe.

If your school or organization is interested in receiving the free I Can Tell training, or being connected to case management services please contact Family Services Association at **(937) 222-9481** and ask to be connected to the Director of Womanline
EMAIL: information@fsadayton.org
